

Osmosis

+PÜR MEDICAL SKINCARE

replenish

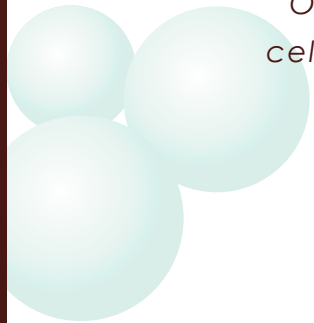

Osmosis replenishes the skin's nutrients including lipids, amino acids, antioxidants, zinc fingers, growth factors, and mineral co-factors so that the skin performs optimally and responds to our request to reverse damage and aging.

restore

Osmosis restores proper immune activity, cell wall integrity, epidermal barrier protection, and the fibroblasts production of collagen and elastin through its unique combination of ingredients and growth factors.

repair

Osmosis repairs the epidermal barrier, existing DNA and new DNA damage, cellular and structural damage, including scarring, all by enhancing the skin's immune function and flooding it with Zinc Fingers™ and growth factors.

Osmosis has developed a strategy to transform your skin that is based on science but is a paradigm shift from what most companies propose. The core concept is simple; our skin is operating at its highest potential at all times and therefore we should not attempt to interfere with its normal function but rather assist it in the healing process with as many remarkable ingredients as we can find.

This can be summed up best in 5 key points:

1. **Natural Exfoliation** - Increase cell renewal without damaging the surface of the skin. This provides the extra protection needed to reverse aging.
2. **Liposomal Delivery** - Our patented liposome technology significantly increases absorption of nutrients. Aging happens primarily in the deep skin which is why Osmosis focuses our attention there.
3. **Skin Nutrition** - If you want real change in the skin, you have to feed the process. Only Osmosis uses multiple ingredients to increase the delivery of nutrients like antioxidants, growth factors, immune cells, and peptides to repair the skin.
4. **Boost Immune Repair** - Your skin wants to repair itself but becomes less able to do so over time. Osmosis uses a variety of cutting edge ingredients to maximize your skin's repair-ability including addressing scarring and cell damage.
5. **DNA Repair** - DNA dictates how much collagen and elastin your skin makes along with every other aspect of skin health. Osmosis' Zinc Finger Technology™ repairs DNA, improves cell function, strengthens capillaries, lightens pigmentation, and increases collagen and elastin.

cleanse...

Purify *Enzyme Wash*

Purify is a gently exfoliating citrus cleanser that is effective at removing environmental toxins and makeup without stinging the eyes or damaging the skin's protective lipid barrier.

treat...

Apply any one of these serums to your skin twice daily for good skin health. To achieve advanced skin rejuvenation include the **Transformation Serums** to your protocol. For increased antioxidant protection mix **Replenish** with **Renew** or **Correct**.

Replenish *(Retinaldehyde Free)*

Gentle Activity Serum/All Skin Types - Liposomal antioxidant serum containing 5 collagen/elastin stimulators.

Correct *(.05% Retinaldehyde)*

Moderate Activity Serum/Sensitive or Normal Skin - Stimulation of collagen and elastin, remodel scarring, restores skin barrier to normalize oil.

Renew *(.1% Retinaldehyde)*

High Activity Serum/Normal Skin (*Renew is approximately twice the strength of Correct*) - Increased stimulation of collagen and elastin, remodel scarring, restores skin barrier to normalize oil.

hydrate...

Clear *Facial Conditioner*

Clear is our frequency-enhanced water that heals and rejuvenates the skin. Use it to mist the skin following your serum applications. Massage into skin for better delivery of active ingredients. Repeat as desired to enhance product delivery.

Quench *Hydrator*

Quench is our light weight moisturizer. It contains high amounts of hyaluronic acid and liquid crystals that provide various lipids to restore the epidermal barrier.

Transformation Serums

Catalyst + with SRGF-7™

Catalyst uses Zinc Finger Technology™ (ZFT) to repair DNA damage. SRGF-7™ is a patented combination of amino acids and key co-factors that will improve wound healing, lighten pigmentation, reduce visible capillaries and stimulate collagen/elastin production.

StemFactor

Utilizing over 150 different skin growth factors, StemFactor restores youthful levels of your skins growth factors which repair and rejuvenate all aspects of skin health. These liposomal growth factors dramatically improve skin restoration and effectively turns back time on aging skin.

**See advanced specialty care for increasing the activity level of your serums*

cleanse...

Cleanse *Gentle Cleanser*

Cleanse is a luxurious minty gentle cleanser that effectively removes dirt. Free of sodium lauryl sulfate.

treat...

Apply **Mend** or **Calm** to your skin twice daily for good skin health. To achieve advanced skin repair include the **Transformation Serums** to your protocol. For increased antioxidant protection mix **Replenish** with **Mend** or **Calm**.

Replenish *(Retinaldehyde Free)*

Gentle Activity Serum/All Skin Types - Liposomal antioxidant serum containing 5 collagen/elastin stimulators.

Mend *(.05% Retinaldehyde)*

Very Sensitive Skin/More calming and less stimulating than Calm - Soothes redness, restores protective barrier and reduces scarring.

Calm *(.075% Retinaldehyde)*

Mild or Moderate Sensitivity - Calms inflammation, rebuilds thinned dermis, normalizes oil, hydrates the skin.

**See advanced specialty care for increasing the activity level of your serums*

Transformation Serums

Our Transformation Serums offer an acceleration in skin rejuvenation and repair. Using patent formulations with leading scientific findings that positively impact the recovery of damaged DNA while building collagen and elastin in the skin. It can also improve scarring, skin tags, actinic keratosis, and other skin disturbances that relate to DNA damage.

Catalyst with SRGF-7™

Catalyst uses Zinc Finger Technology™ (ZFT) to repair DNA damage and assist in the production of proteins and antioxidants within the cell. SRGF-7™ is a patented combination of amino acids and key co-factors that will improve wound healing, lighten pigmentation, reduce visible capillaries and stimulate collagen/elastin production through a revolutionary process.

Catalyst+ with SRGF-7™

Catalyst uses Zinc Finger Technology™ (ZFT) to repair DNA damage. SRGF-7™ is a patented combination of amino acids and key co-factors that will improve wound healing, lighten pigmentation, reduce visible capillaries and stimulate collagen/elastin production.

Stem Factor

Utilizing over 150 different skin growth factors, StemFactor restores youthful levels of your skin's growth factors which repair and rejuvenate all aspects of skin health. These liposomal growth factors dramatically improve skin restoration and effectively turns back time on aging skin.

Boost (.2% Retinaldehyde)

Very High Activity Serum/Normal Skin

Boost is approximately twice the strength of Renew. Boost lets you adjust your dose to push your skin to the next level when it is ready.

Powder Blends

Powder blends allow you to customize every protocol by adding more of the key active ingredients needed for that condition. They can be mixed with your serums or blended into a mask as desired.

Acne Blend

Increases scar tissue remodeling, helps clear stubborn bacteria, and improves wound healing. Can also be used for spot treatment of cystic acne when mixed with Clarify.

Anti-Aging Blend

Use this blend for 20 days then take 10 days off. Reduces bacteria, encourages scar tissue remodeling, enhances growth factor and skin nutrition delivery as well as increasing CoQ10 to drive cellular repair.

Calming Blend

Significantly reduces redness and irritation. This wonderful combination of Chinese herbs and soothing botanicals boosts your skin's repair activity and calms inflammation.

Vitamin C Blend

Can be used on its own but is much more potent in combination with Skin Nutrition Blend. Effective for treating hyperpigmentation and aging collagen stimulation.

Skin Nutrition Blend

This along with Vitamin C Blend are a great options for DNA repair thereby normalizing pigment, improving visible capillaries, improving actinic keratosis, providing natural sun protection, increasing collagen/elastin and much more. It is an alternative option to Catalyst when mixed with C.

Lightening Blend

This magical blend is best utilized with Vitamin C to accelerate the repair of damaged melanocytes. It uses a unique combination of amino acids that focus on pigmentation more specifically.

Menopausal Blend

A blend of powerful amino acids and phytoestrogenic actives like genistein to nourish and stimulate skin that is lacking healthy hormone levels. This combination restores collagen/elastin and moisture levels that are often negatively affected in peri-menopausal and menopausal skin.

Moisturizers & SPF

Quench *Hydrator*

Skin Type: Normal/Combination

Quench is our light weight moisturizer. It contains high amounts of hyaluronic acid and liquid crystals that provide various lipids to restore the epidermal barrier.

Immerse *Intense Hydrator*

Skin Type: Very Dry/Dehydrated

Use to calm and soothe very dry skin or to treat wound healing. Immerse contains powerful antioxidant oils from blueberry, red raspberry, and calendula along with barrier-restoring natural lipids.

Shelter *Sunblock/Moisturizer*

Skin Type: All

Shelter is our all-natural SPF 29+ zinc oxide sunblock with moisturizing benefits. It provides significant broad spectrum sun protection utilizing silica-coated micronized zinc which does not break down and does not absorb into our system.

Eye Care

Refresh *Eye / Repair Serum*

(Dark Circles and Puffiness)

This powerful eye serum utilizes ingredients that work with the skin to effectively reduce puffiness, lines, and dark circles. In addition, it also contains proven ingredients to increase collagen and elastin as well as to firm and protect the delicate layers around the eye.

Refresh *PM Eye / Repair Serum*

(Fine Lines and Wrinkles / Firming)

Refresh PM is our nighttime serum with ingredients proven to help recover a healthy barrier and reduce fine lines often found around the eyes. This unique blend of plant liquid crystals along with liposomal GHK copper peptides and Retinaldehyde is a best-seller because of its nighttime hydrating and plumping effects.

Cleansers

Cleanse *Gentle Cleanser*

Skin Type: Normal/Sensitive

Cleanse is a luxurious minty gentle cleanser that effectively removes dirt. Free of sodium lauryl sulfate.

Purify *Enzyme Wash*

Skin Type: Normal/Aging/Acne

Purify is a gently exfoliating citrus cleanser that is effective at removing environmental toxins and makeup without stinging the eyes or damaging the skin's protective lipid barrier.

Deep Clean *Facial Cleanser*

Skin Type: Normal/Oily

Deep Clean uses a unique combination of coconut derived surfactants. Great to remove deep impurities and gentle enough for all skin types.

Treatment Masks & Peels

Osmosis is proud to offer USDA Certified Organic, Herbal Masks and Peels. Our masks provide the base to our MediFacial and can be used on any skin type.

USDA Certified Organic Masks

Berry Blend

Mask treatment for Anti-Aging

Spiced Apple

Mask treatment for Calming

Apricot

Mask treatment for Anti-Aging and Brightening/Hyperpigmentation

Spiced Plum

Mask treatment for Calming and Menopausal

Wine and Grape

Mask treatment for Anti-Aging/Antioxidant

Herbal Masks

Purifying Clay

Best for acne and impure skin.

Hydrating Herbal

Stimulating and hydrating anti-aging mask.

Brightening Gel

Improves moisture, lightens and soothes the skin.

Specialty Masks

Polish *Enzyme Mask*

Polish is our cranberry enzyme smoothing, peptide firming, antioxidant mask. It is a mild exfoliating mask which leaves the skin firm, smooth, and beautiful.

Repair *Healing Mud*

Repair is designed to enhance the healing post-procedure. It calms irritated skin by effectively soothing inflamed and wounded skin. The combination of wound-healing actives is wonderful as a mask or on compromised skin, especially in combination with StemFactor.

Facial Infusion

Non Chemical Peel

Facial Infusion contains 8 collagen stimulators delivered with advanced liposomal technology that improves penetration of the 23 active ingredients. This peel remodels the dermis and is gentle for all skin conditions.
